Statement

My career is defined by a track record of leadership, integrity, and respect. I am unafraid to speak out and challenge convention, even when it may not be popular or politically expedient. I have spent my professional life, as have you, working to improve the lives of our patients.

I have been a supporter of and Affiliate Member of the IAPA for many years, and a leader in the APA for over two decades. I believe that my Platform serves the best interests of all psychiatrists.

Eliminating Maintenance of Certification

The APA should unequivocally oppose maintenance of certification.

Fighting Scope of Practice

The greatest threat to Psychiatry. I will relentlessly challenge the APA to protect our profession.

Elevating Psychiatry's Prominence

Americans still do not know the difference between a psychiatrist and a psychologist. The APA must better educate the public about the value of psychiatry.

Engaging our Membership

I understand the stress and frustrations you face in our daily professional lives. The APA must connect with you and address your needs and concerns.

I will bring a new voice and new energy to the APA Board of Trustees. I will always vigorously challenge the APA to do better for you.
