

Rahn K. Bailey, MD, DFAPA, ACP

For two decades, I have been working with the APA and I have enjoyed working to better the lives of psychiatric patients. In 2012, APA President Liebermann appointed me to be a part of the first APA Diversity Task Force. We were charged with improving opportunities within the APA for historically disenfranchised members. If elected, my goal is to use my role as an APA BOT member to foster more effective opportunity for everyone. I plan to do this by focusing on physician reimbursement, addressing licensure challenges and overall scope of practice.
