

Partners in the Community Grant

New opportunity: exclusive to PRMS partners, the PRMS Partners in the Community Grant (PPCG).

If your organization and/or members work with a non-profit organization (examples: a charity supporting veterans, youth, or underserved individuals; a free healthcare clinic; an organization that offers crisis hotline or intervention support) committed to bettering mental healthcare in your community or area of focus, or if you are working to create or strengthen a relationship with such an organization, we invite you to apply. One organization will be selected to receive a \$3,000 grant from PRMS' partner and program carrier company, FAIRCO, which will allow your organization to develop further programming, member volunteer opportunities, and more with the charity.

To apply for the grant, we ask that your organization nominate up to two residents or early career members who are interested in taking on more leadership opportunities within your branch/organization to spearhead this application process and act as grant representative(s). The grant representative(s) will complete an application process that shares why they believe your chosen organization is most worthy of the grant and how your group would plan to help the organization use this funding in a way that aligns with both your and the charity's goals for mental health awareness and support.

Once our selection committee of PRMS and FAIRCO employees chooses an organization to receive the grant, PRMS will announce the winner in New York during PRMS' Annual Reception hosted with the Southern Psychiatric Association on Sunday, May 5th. We would love for you and your members to join us at the reception and invite the grant representatives, if available, to attend the reception for the winner announcement and check presentation.

We look forward to receiving the Indo-American Psychiatric Association's application and thank you for all you do for your members!

Sincerely,

**Julia Bajereanu | Senior Client and Partner Relations Manager
Professional Risk Management Services (PRMS)**
